FOR OVER 60 YEARS

AV and Point of Communication Solutions From People Who Know Healthcare

Why partner with TVR Communications for your AV and Point of Communication solution needs? Quite simply, we know healthcare. We are a Healthcare Information Technology company with a sole focus on healthcare for over sixty years. Over 300 hospitals and health systems have used our solutions. This unique perspective lets us approach your project with an insider's understanding of the hospital environment. You can be certain our solutions meet healthcare standards and policies, as well as biomed regulations.

Our Certifications

- Operating Rooms
- Training Rooms
- Auditoriums
- Distance Learning Classrooms
- Lecture Halls
- Public Areas and Waiting Rooms

pCare Point of Communication Solutions

Improve your outcomes by delivering a better facility-wide experience with pCare Point of Communication Solutions.

Wayfinding

Current research on healthcare wayfinding has shown that static signage does little to improve the patient experience. Eliminate the additional stress of being “lost and late” with dynamic wayfinding solutions.

- Help patients and visitors better navigate your facility
- More cost-effective than static signage
- Easy to update
- Visually appealing

Digital Signage

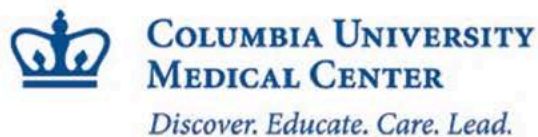

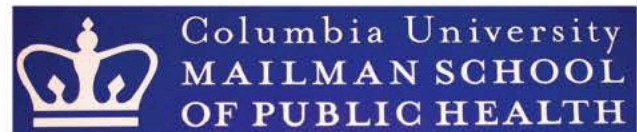

Vibrant, dynamic digital displays are becoming increasingly common in today’s healthcare facilities. Proven benefits include improving the patient experience, generating revenue, and promoting wellness. Digital signage helps both patients and providers by:

- Curbing patient anxiety through entertainment
- Helping shorten perceived wait times
- Announcing new team members and services
- Honoring important donors

No matter what you want to display, you’ll enjoy centralized management and enterprise-wide content updates.

Unrivaled Experience

We are proud of our work helping the following hospitals and health systems achieve their communication, education and patient satisfaction goals with our AV and Point of Communication solutions:
